

Ten Reasons to Consider a Hosted Digital Catalogue

Enjoy a secure professional inventory organized to your specification with no software or hardware investment and no upgrades or replacement costs in the years ahead.

No special training: your office staff can concentrate on administrative responsibilities while JWSC art catalogue professionals do the rest.

State-of-the-art museum standards for data entry and preservation. We use the same top-rated software selected by museum professionals around the world.

Complete digital imaging means every report can be an illustrated report.

Security with high-speed digital scanning and conversion of all related documents (receipts, appraisals, correspondence, and auction records).

Reconciliation of all old lists, insurance schedules, and inventories so you can concentrate on new acquisitions and communicating your collecting passion.

We handle all your collection-related data with “kid gloves” and guarantee confidentiality, security of all media, and redundant data backup for your complete peace of mind.

Updated hard copies of all records available within 24 hours of your request (usually within two hours).

Knowledgeable staff available 24/7 via email, phone, or fax.

First year FREE data hosting, with low-cost annual fee in subsequent years and secure access to your reports on-line.
